Projects

TinDog

HTML5, CSS3, Bootstrap5

- Expertly crafted a sleek and user-friendly landing page website that emulates the functionality of popular dating apps like Tinder
- Utilized proficiency in **HTML** and **Bootstrap5** to develop a website with a strong emphasis on responsive design, ensuring optimal user experience across all devices.
- Paid close attention to UI design principles to create an visually appealing and intuitive layout that guides users seamlessly through the website

Online Drum Set

HTML5, CSS3, JavaScript

- Introduces an innovative drum set experience through an interactive website.
- Allows users to produce a variety of sounds using keyboard inputs.
- Utilizes vanilla **JavaScript** for dynamic DOM manipulation.
- Utilizes **CSS3** for responsive web design.

Simon Says Game

HTML5, CSS3, JavaScript, jQuery

- Unleash your memory and test your reflexes with this interactive Simon Says website.
- Classic game that challenges players to memorize and replicate a sequence of sounds and flashing lights. Each level becomes more complex and challenging!
- Incorporating **jQuery** to manipulate the DOM and produce special effects such as adding animation to buttons, adding a failure screen, and more.
